Shabbat Dinner following Services

Q & A with Rabbi, Hazzan and SHU Students

Students in the SHU CURTIS program spend Martin Luther King weekend learning about other religions and participating in service programs. Last year, our Beth El Religious School 6th grade class joined 20 students from SHU on a Friday night for our beautiful Kabbalat Shabbat service followed by a traditional Shabbat dinner and a lively Question and Answer session. This year, we'd like to open the experience to all.

“Sharing our Shabbat traditions with these energetic, enthusiastic and intelligent students was truly special. What better way to bring meaning to MLK weekend than to share a meal with students looking to expand their understanding of other religions.”

-- Monique Sudikoff, 6th grade parent
